

## Word Lists

Since we do not send Homework and Communication Folders home over Track Out times and long breaks, I have compiled a list of all of the Word Lists so you can review previous lists and work on whichever list your child is currently on (and maybe even the next one!). This will be one more thing to help your child continue practicing while on break so they will be ready when we return to school. It is always a good idea to review word lists to make sure your child still knows those words!
